Allowable Subject Matter

4. Claims 82-90 are allowed.
5. The following is an examiner's statement of reasons for allowance: The closest prior art of record, US 2,335,560 to Crane, US 4,489,455 to Spendel, and US 5,858,022 to Berndt, fail to teach each and every limitation of the instant invention. Specifically, the prior art references fail to teach or suggest the claimed method of washing articles comprising the step of forming a two phase (liquid & steam) washing medium in a sealed capsule by injecting a pressurized and heated water/detergent mixture through a fine mesh filter for the purpose of forming finely dispersed droplets/mist, which is disclosed as an essential element of claimed invention, as described in independent claim 82.
6. For at least the foregoing reasons, claims 82-90 are believed to recite patentable subject matter.
7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: GB 2109015, which discloses mist treating textile laundering; WO 95/22647, which discloses mist treating textile laundering.
